## Experience — 9 year 11 month

**November 2022 — present**

**Saint-Petersburg International Mercantile Exchange** · Full-time
**Java developer**

Development of a clearing system for the derivatives market
- Back office, internal logic, integrations.
- REST API
- Unit and integration tests
Stack: Java17/Spring/PostgreSQL/Liquibase/Maven/JUnit/GitLabCI

**February 2021 — November 2022 10 month**

**PJSC "Rostelecom"** · Full-time
**Kotlin developer**

Development of OSS / BSS business process management system in the b2c segment.
- algorithm for automatic transformation into BPMN representation based on rules.
- software building algorithms and process control mechanisms on Camunda
- implementation of TMForum components
- integration with external systems
- data model
- external API
- integration and unit tests
- setting up Gitlab-CI
- deployment and configuration of a remote test server (CentOS), deployment of services
Stack: Kotlin/Spring Boot/DataJpa/PostgreSQL+H2/Maven/Junit

| May 2016 — February 2021 8 year 1 month | **LLC "A-Clinic Line" (Sorin Group Italia S.r.l.)** · Full-time |
| --- | --- |

**Software Engineer**

- Technical support for software configuration and repair of systems for programming medical devices
- Support of medical equipment based on Win NT / XP +, configuration, software installation, repair, Windows administrator, starting with 3.11. Use Linux (Ubuntu, CentOS).
- Setting up and ensuring work with all existing trading systems. Setup EDS, CryptoPro, etc

| January 2013 — May 2016 8 year 1 month | **LLC "A-Clinic Line" (Sorin Group Italia S.r.l.)** · Full-time |
| --- | --- |

**Analyst/Engineer**

- Analytics of the company's business processes. Analysis of the competitive environment, price monitoring, market conditions assessment. Samples, trends, comparison of functionality, annual analysis of a narrow market segment. Easily work with a lot of raw data.

| September 2020 — January 2021 5 month | **javaops.ru** · Part-time |
| --- | --- |

**Full-stack Developer**

Development of a full-featured Spring/JPA Enterprise application with role-based authorization and access rights https://github.com/LozitskiyAnton/topjava

- Java 8, Maven, Spring MVC/Data-JPA/Hibernate/Security, REST(Jackson), Postgres/HSQLDB
- implementation and testing of REST and AJAX controllers
- client implementation on Bootstrap (css/js), datatables, jQuery + plugins
- deploy to PaaS Heroku https://topjavafox2k.herokuapp.com

## Professional Summary

Experienced developer, worked RESTful microservices and monolith. I'm constantly looking for new ideas and solutions, eager to learn from the experience of colleagues and contribute to their expertise. As a business-oriented developer, I know how important to convey the advantages and disadvantages of each technical solution in terms of deadlines and business risks. A versatile team player with a passion for learning and growing within an organization. Soft skills have always been a strong point - calm, polite and tolerant.Calmly and patiently find a solution to the problem, easily find a common language with people.
