About

Java/Kotlin backend developer with 5+ years of experience in industries such as medicine, telecommunications, finance. I'm passion for coding and technology from childhood. Prefer to write clean, understandable, documented code that I completely cover with tests. Before moving to the Java stack, for a long time worked as system administrator Windows/Linux and repair and maintenance engineer. I have master degree in mathematical and computer science. Soft skills have always been a strong point - calm, polite and tolerant. Patiently find a solution to the problem, easily find a common language with people, prefer to work in a team.

Skills

- **Java 5+ years:** Java 17, Lombok, JPA (Hibernate), JSP/JSTL, Jackson, JAXB, JDBC, JUnit, AssertJ, Mockito, Slf4j, Logback.
- **Kotlin 2+ years**.
- **Spring 3+ years**: Boot, Web, Security, Data, Test.
- **DB**: PostgreSQL, H2, MySQL, HSQLDB.
- **CI/CD**: GitLab.
- **Front:** JavaScript, HTML5, CSS, jQuery, AJAX, Bootstrap
- **BPMS:** Camunda
- **Tools:** IntelliJ IDEA, Git, Maven, Tomcat, Liquibase, Docker/compose, Swagger, SoapUI/Postman, GitLab, Jira, Confluence, Javadoc.
- TDD, DDD, TCP / IP, HTTP, LDAP, JWT, client-server architecture, REST architecture, development methodologies, patterns.
- Strong expertise with Linux (Debian based, RHEL based).
- **Cover all the code** with integration and unit tests
- **Master degree in mathematical** / computer science
- **Fluency in English**. B2 Upper Intermediate. Russian native.

Experience — 9 year 11 month

November 2021 — present

Saint-Petersburg International Mercantile Exchange · Full-time
Java developer

Development of a clearing system for the derivatives market
Responsible for
- Back office, internal logic, integrations.
- Authentication and authorization.
- Integrations with external systems.
- REST API
- Unit/Integration/Load tests
- Code review
Stack: Java17/Spring/PostgreSQL/Liquibase/Maven/JUnit/GitLabCI

February 2021 — November 2021
10 month

PJSC "Rostelecom" · Full-time
Kotlin developer

Development of OSS / BSS business process management system in the b2c segment
Responsible for
- algorithm for automatic transformation into BPMN representation based on rules.

- implementation of TMForum components
- integration with external systems
- data model
- external API
- integration and unit tests
- setting up Gitlab-CI
- deployment and configuration of a remote test server (CentOS), deployment of services

Stack: Kotlin/Spring Boot/DataJpa/PostgreSQL+H2/Maven/Junit

September 2020 —
January 2021
5 month

javaops.ru · Advanced training

Full-stack Developer

Full-featured Spring/JPA web application with role-based authorization and access rights
Responsible for.
- Backend logic
- implementation and testing of REST and AJAX controllers
- client implementation on Bootstrap (css/js), datatables, jQuery + plugins
- deploy to PaaS Heroku https://topjavafox2k.herokuapp.com
  Stack: Java 8, Maven, Spring MVC/Data-JPA/Hibernate/Security, REST(Jackson), Postgres/HSQLDB

May 2016 —
February 2021
4 year 10 month

LLC "A-Clinic Line" (Sorin Group Italia S.r.l.) · Full-time

Software Engineer

Development software for wearable medical devices
Responsible for.
- Internal logic
- Front on JSP/JSTL
Stack: Java/JDBC/MySQL/Maven

Repair/Maintenance Engineer

- Technical support for software configuration and repair of systems for programming medical devices
- Support of medical equipments based on Win or Linux OS, configuration, software installation, repair.

January 2013 —
May 2016
3 year 5 month

System Administrator

- Technical support for software configuration and repair of systems for programming medical devices
- Support of medical equipments based on Win or Linux OS, configuration, software installation, repair.
- Setting up and ensuring work with all existing trading systems. Setup EDS, CryptoPro, etc

Education

1999 - 2004

Vologda State Technical University
Bachelor, mathematics, computer science, computer technology

Courses

2020

Javaops.ru
Enterprise Java developer

2015

Sorin Group
France, Repair engineer for programmers for implantable pacemakers

2013

High School of Economics
Advanced training in working with the trading systems.
