About

Java/Kotlin backend developer with 5+ years of experience in medicine, telecommunications, finance. Write reusable, testable, and efficient code . Keen at coding and technology from childhood. Before moving to JVM stack, for a long time worked as Windows/Linux system administrator and SRE engineer. Have master degree in mathematics and computer science. Strong soft skills - always calm, polite and tolerant. Patiently find a solution, easily find a common language with people, prefer to work with a team.

Skills

- **Java 5+ years:** Java 5-17
- **Kotlin 2+ years**.
- **Spring 3+ years**: Boot, Web, Security, Data, Test.
